# BENEFITS OF OWNING A DEFERRED ANNUITY

## TAX DEFERRAL

Tax-deferred growth allows your money to grow faster because you earn interest in dollars that would otherwise be paid in taxes. Your premium earns interest, the interest compounds within the Contract, and the money you would have paid in taxes earns interest. The chart details the potential of a tax-deferred annuity.

Chart is a hypothetical example of tax-deferral and assumes an initial premium of \$100,000 earning 4.00% compounded annual rate of return for each Guarantee Period on an annuity that renewed for three consecutive 5 year Guarantee Periods totaling 15 years. For other Guarantee Period combinations, surrender charges may apply using this same hypothetical 15 year period. Not intended to predict or project performance. \*Tax deferred value less taxes represents the increase in value, due to tax deferral, less taxes at an assumed rate of 33% with no surrender charge or Interest Adjustment applied.

## COMPANY FINANCIAL STRENGTH

All North American tax-deferred annuities are backed by the financial strength of the Company's investment portfolio, which emphasizes high-quality bonds that provide safety, liquidity and competitive interest rates. In states where this product is approved, North American maintains reserves equal to those required by state regulation.

## DEATH BENEFIT

North American will pay out, as the Death Benefit, the Accumulation Value to your beneficiary upon the death of the annuitant or an owner. Your beneficiary may choose to receive the payout in either a lump sum or a series of income payments. If joint annuitants are named, the Death Benefit will be paid on the death of the second annuitant. If joint owners are named, the Death Benefit will be paid on the death of the first owner.

## LIFETIME INCOME

North American can provide you with a guaranteed income stream with the purchase of your tax-deferred annuity. You have the ability to choose from several different annuity payout options, including life or a specified period. *See the Annuity Payout Options section for complete details.*

## MAY AVOID PROBATE

By naming a beneficiary, you may minimize the delays, expense and publicity often associated with probate. Your designated beneficiary receives death proceeds in either a lump sum or a series of income payments. *Please consult with and rely on your own legal or tax advisor.*

# ACCESSING YOUR MONEY

Emergencies do arise, and access to your money is always an important concern. The Guarantee Choice Series offers a variety of liquidity features.

For additional withdrawals prior to the end of the surrender charge period, surrender charges may apply. Withdrawals will be treated as ordinary income and if taken prior to age 59½ may be subject to a 10% IRS penalty. Withdrawals from your Contract will also reduce your Accumulation Value accordingly.

## ANNUITY PAYOUT OPTIONS

Should you decide to receive an income from your annuity after each Guarantee Period, you will have several annuity payout options from which to choose. Annuity payout options are a benefit of deferred annuities, but are not a requirement with the Guarantee Choice. Please refer to the chart on the right for annuity payout options available to you.

With non-qualified plans, a portion of each income payout represents a return of premium that is not taxable, thus reducing your tax liabilities.

By current Company practice, you may receive an income from the Accumulation Value after the first contract year (without surrender charges or Interest Adjustment) if you choose a Life Income option.

## NURSING HOME CONFINEMENT WAIVER<sup>2</sup>

After the first contract anniversary, should the annuitant become confined to a qualified nursing home facility for at least 90 consecutive days, we will increase the penalty-free withdrawal amount by 10% of the Accumulation Value each year while the annuitant is confined. This waiver is only available for issue ages 75 and younger and is automatically included with your annuity at no additional charge.

## PENALTY-FREE WITHDRAWALS

The Guarantee Choice allows you to take a penalty-free withdrawal (also known as a Penalty-Free Partial Surrender) equal to the interest earned each year after the first contract year, without incurring any surrender charges or Interest Adjustments.

By current Company practice, this interest withdrawal can begin as early as 30 days after your annuity is issued if received on a systematic withdrawal program. You can elect to receive payments monthly, quarterly, semi-annually or annually as long as each payment is at least \$50.

Any amount withdrawn in excess of interest earned will be assessed a surrender charge and possibly an Interest Adjustment. Surrender charges and Interest Adjustments on IRS Required Minimum Distributions exceeding the penalty-free withdrawal amount will be waived by current Company practice.

## RENEWAL FEATURE

At the end of each selected Guarantee Period, you may choose to renew your annuity for another guaranteed interest rate period. Depending on your circumstances and financial goals, you will have a 30 day window to select a Guarantee Period from those available, elect a payout option, or withdraw your Accumulation Value. If no election is made, the Company will automatically renew your annuity for the same Guarantee Period.

Within this 30 day window, no surrender charges or Interest Adjustment will apply. **After the 30 day window, a new Guarantee Period, Guarantee Period Interest Rate, Surrender Charge Period and Interest Adjustment will be applied.**

Renewal rates for subsequent Guarantee Periods may differ from the initial guaranteed interest rate.

2. In states where waiver is approved. Please contact your sales representative for state availability. If joint annuitants are named on the annuity, waiver will apply to the first annuitant who qualifies for the benefit.

## INCOME OPTIONS

With the exception of Life Income options, income options are available for:

- A minimum of 5 years, or
- A maximum of 20 years.

The following options are available:

- Income for a Specified Period
- Income for a Specified Amount
- Life Income with a Period Certain
- Life Income
- Joint and Survivor Life Income

All options are available after each Guarantee Period.

# PRODUCT FEATURES

## MINIMUM GUARANTEED CONTRACT VALUE (MGCV)

The MGCV equals 100% of premium, less withdrawals—before any surrender charges or Interest Adjustment—accumulated at the MGCV Interest Rate of 1%, less any applicable surrender charges. Upon full surrender of the Annuity, you will receive no less than the MGCV. The MGCV Interest Rate is based on the issue date and is guaranteed for the entire contract term. *See your sales representative for current rate information.*

## INTEREST ADJUSTMENT<sup>3</sup>

The Guarantee Choice Series also includes an Interest Adjustment that will be applied to each Guarantee Period—which may decrease or increase your Surrender Value, depending on the change in interest rates since the beginning of the Guarantee Period.

Due to the mechanics of an Interest Adjustment feature, the Surrender Value generally decreases as interest rates rise. Likewise, when interest rates have decreased over a period of time, the Surrender Value generally increases. However, the Interest Adjustment is limited to the interest credited to the Accumulation Value.

This adjustment is applied during each Guarantee Period to surrenders that exceed the applicable penalty-free amount. Interest Adjustments on any portion of IRS-Required Minimum Distributions in excess of the penalty-free amount are waived by current Company practice.

<p>Surrender charges allow the Company to invest your money on a long-term basis and credit higher yields than possible with a similar annuity of shorter term. Surrender charges are based on your chosen Guarantee Period. A surrender charge is assessed on any amount withdrawn, whether as a partial or full surrender, that exceeds the penalty-free amount applicable. However, surrender charges on any portion of an IRS-Required Minimum Distribution are waived by current Company practice. This table details the declining charges by the option chosen. Certain payout options may incur a surrender charge.</p> <p><b>Note:</b> Please keep in mind that a surrender during each Guarantee Period could result in a loss of premium. ### SPECIAL NOTICE REGARDING THE USE OF A LIVING TRUST AS OWNER OR BENEFICIARY OF THIS ANNUITY.

The use of living trusts in connection with an annuity contract can be a valuable planning mechanism. However, a living trust is not always appropriate when mass-produced in connection with the sale of an insurance product. We strongly suggest you seek the advice of your qualified legal advisor concerning the use of a trust with an annuity contract.
